## **Upgrades to Lake Arrowhead Old Fire Station #94 Approved**

On Tuesday, the Board of Supervisors awarded a contract to Trinity Construction of Blue Jay for the Lake Arrowhead Old Fire Station Restroom Improvement Project. The restrooms are being renovated in order to meet current American with Disabilities Act (ADA) requirements.

“The County, along with the Rim of the World Historical Society, is renovating the old fire station so that it can serve as a historical museum to house and display documents, artifacts, and exhibits,” said Third District Supervisor Dennis Hansberger.

The Old Fire Station #94 is owned by the County of San Bernardino and leased to the Rim of the World Historical Society. Funding for this project is from a Community Development Block Grant awarded to the Historical Society by Supervisor Hansberger, along with \$13,000 from the Historical Society.
